

Erasmus Student Network
Linköping

Action Plan
2021/22

International Level

- The Board will encourage board and active members to attend international events.
- The Board will use the knowledge available within the network to learn more about ESN.

National Level

- The Board will encourage more board and active members to attend national events to create a better connection to the network and to bring knowledge back to the local level.
- The Board will ensure that the section requirements are being followed.
- The Board will actively participate in discussions held at national events and national board meetings making the boards opinion heard. Speaking up against anything that is not serving the best interest of the network nor ESN Linköping.

Local Level

- The Board will work on the communication with the committees to keep a good and open – and happy – working environment. The committees should work as a unit and everybody should feel like a part of the work of ESN Linköping.
- The Board will investigate new platforms to reach out to the students.
- The Board will strive towards adding more benefits and discounts for the ESNcard. This will be done by actively searching for new partners.
- The Board will continue the work of developing the new ESN Linköping website.
- The Board will re-start the tradition of having alumni events for previous board members.
- The Board will investigate the possibilities of re-establishing the ESN Linköping International Nights.
- The Board will work towards strengthening the name of ESN Linköping at all three campuses and amongst Swedish and international students.

- The board will work towards strengthening the integration between international and Swedish students. Especially through BC and preferably through collaborations with Consensus, StuFF and/or LinTek.
- The Board will continue the dialogue with StuFF and the University about extra credits for people actively involved in ESN Linköping (board member, committee member, local buddy).
- The Board will keep a good dialogue with ISA and work together when needed to serve the best interest of the students.
- The Board will keep the good relationship with the University and the International Office.
- The Board will strive to have as good knowledge transfer as possible to the new board. Thus, creating more continuity in the developing work and better execution of events arranged by the board.
- The Board will work towards strengthening and developing the international projects on local level such as ResponsibleParty, SocialErasmus, ExchangeAbility, Movi'n Europe. The knowledge transfer for these projects to the new board will be in extra focus.
- The Board will investigate the possibilities of the Erasmus+ App to see if ESN Linköping and the students would benefit from it.
- The Board will offer students a variety of activities throughout the semester, which will satisfy the different interests of the international students.
- The Board will always have the international students best in mind.
